Nagpur, Maharashtra, India

PROFESSIONAL SUMMARY

Results-driven Java Developer with hands-on experience in designing, developing, and testing scalable applications. Proficient in OOP principles, Spring Boot, and JDBC with a strong foundation in data structures and algorithms. Passionate about building efficient, maintainable software solutions and contributing to high-impact projects.

EDUCATION

Rashtrasant Tukadoji Maharaj Nagpur University (RTMNU)
Bachelor of Computer Applications (BCA) in Computer Science

Nagpur, Maharashtra
Aug 2022 – May 2025

- Relevant Coursework: Data Structures, Algorithms, Database Management, Object-Oriented Programming, Software Engineering

EXPERIENCE

Java Developer Intern
Elevate Labs

Sep 2025 – Nov 2025
Bengaluru, India

- Designed, developed, and tested Java applications for production environments, contributing to 3+ real-world client projects
- Implemented core Java concepts including OOP, exception handling, file I/O, and multi-threading to build robust application modules
- Collaborated with cross-functional teams to debug critical issues, optimize code performance by 15%, and ensure timely project delivery
- Participated in code reviews and applied best practices for clean code, resulting in improved maintainability and reduced technical debt
- Utilized JDBC for database connectivity and performed CRUD operations on MySQL databases

PROJECTS

E-Commerce Application | Java, Spring Boot, MySQL, REST API

Jan 2025

- Built a full-stack e-commerce platform with user authentication, product catalog, and shopping cart functionality
- Developed RESTful APIs for product management and order processing, serving 100+ concurrent users
- Implemented Spring Security for authentication and authorization, ensuring secure user data handling

Student Management System | Java, JDBC, MySQL, Swing

Sep 2024

- Developed a desktop application to manage student records with CRUD operations using JDBC and MySQL
- Designed an intuitive GUI using Java Swing, reducing data entry time by 30%
- Implemented data validation and exception handling to ensure data integrity

Task Tracker CLI | Java, File I/O, Collections

Jun 2024

- Created a command-line task management tool with features for adding, updating, and deleting tasks
- Utilized Java Collections Framework for efficient data management and file handling for persistence

TECHNICAL SKILLS

Programming Languages: Java, C, C++, SQL, Python (Basic)

Frameworks & Technologies: Spring Boot, Spring MVC, Hibernate, JDBC, REST API, Maven, Git

Databases: MySQL, PostgreSQL

Tools & Platforms: IntelliJ IDEA, Eclipse, VS Code, GitHub, Postman, Linux

Core Competencies: Object-Oriented Programming, Data Structures & Algorithms, Software Development Life Cycle (SDLC), Agile Methodologies, Problem Solving, Debugging, Code Optimization

CERTIFICATIONS & ACHIEVEMENTS

Tata Group - Data Visualisation: Empowering Business with Effective Insights | Job Simulation

Problem Solving | Solving Challenge of 100+ problems on LeetCode
